Sub: "Citizen's Initiative - 'Our Gyenkhru'" to Address LPG Shortage.

Dasho,

As you may be aware, the Department of Trade, MoEA on 11th April 2019 launched "Our Gyenkhru: Citizen's initiative" to address LPG shortages reported in different part of the country. This main objective of the initiative is to mainly encourage urban residents to switch the use of LPG cylinders from subsidized to Non-subsidized LPG for the benefits of the rural and underprivileged households.

In support of the above initiative, the Hon'ble Prime Minister, Hon'ble Speaker, Hon'ble Opposition leader, Hon'ble NC Chairperson, Hon'ble Chief Justice and the Cabinet Ministers have all surrendered their subsidized LPG and availed non-subsidized LPG. Subsequently, all executives along with other senior officials of the MOEA and a few other agencies have also voluntarily surrendered subsidised LPG and availed non-subsidised LPG.

MINISTER

Since the Citizen's Initiative is going to be a nationwide campaign covering all 20 Dzongkhags, I would like to request Dasho to kindly initiate/spearhead the campaign in your Dzongkhags to solicit the support and solidarity of the general public to the above Citizen's initiative. It is our humble hope and expectations that all urban households/individuals will come forward to support this initiative for the cause of the less privileged citizens in the rural areas. I have instructed all concerned Regional Directors to report to Dasho for further consultation and necessary preparation for the campaign. Your continued support and co-operation will go a long way in addressing the shortage in the country.

with best regards!
