## 1. Introduction

The Procuring Agency named in the Data Sheet will select a consulting firm/organization (the Consultant) in accordance with the method of selection specified in the Data Sheet.

The Consultants are invited to submit a Technical Proposal and a Financial Proposal, or a Technical Proposal only, as specified in the Data Sheet, for Consulting Services required for the assignment named in the Data Sheet. The Proposal will be the basis for contract negotiations and ultimately for a signed Contract with the selected Consultant.

Consultants should familiarize themselves with local conditions and take these into account in preparing their Proposals. To obtain first-hand information on the assignment and local conditions, Consultants are encouraged to attend a pre-proposal meeting if one is specified in the Data Sheet. Attending the pre-proposal meeting is optional. Consultants should contact the Procuring Agency's representative named in the Data Sheet to obtain additional information on the pre-proposal meeting. Consultants should ensure that this official is advised of the proposed attendance at the meeting in adequate time to allow them to make appropriate arrangements.

The Procuring Agency will timely provide at no cost to the Consultant the inputs and facilities specified in the Data Sheet, assist the Consultant in obtaining licenses and permits needed to carry out the Services, and make available relevant project data and reports.

1.5. Consultants shall bear all costs associated with the preparation and submission of their proposals and contract negotiation. The Procuring Agency is not bound to accept any proposal, and reserves the right to annul the selection process at any time prior to Contract award, without thereby incurring any liability to the Consultants.

**2. Conflict of Interest**

The Procuring Agency and the RGoB requires that Consultants provide professional, objective and impartial advice, and at all times hold the Procuring Agency's interests paramount, strictly avoid conflicts with other assignments or their own corporate interests, and act without any consideration for future work. Without limitation on the generality of the foregoing Consultants, and any of their affiliates, shall be considered to have a conflict of interest, and shall not be recruited, under any of the circumstances set forth below:

a) **Conflicting Activities:**

A firm that has been engaged by the Procuring Agency to provide goods, works or services other than Consulting Services for a project, and any of its affiliates, shall be disqualified from providing Consulting Services related to those goods, works or services. A firm hired to provide Consulting Services for the preparation or implementation of a project, and any of its affiliates, shall be disqualified from subsequently providing goods or works or services resulting from or directly related to the firm's Consulting Services for such preparation or implementation. For the purposes of this paragraph, services other than Consulting Services are defined as those leading to a measurable physical output, for example surveys, exploratory drilling, aerial photography, and satellite imagery.

b) **Conflicting Assignments:**

A Consultant, including its Sub-Consultants, affiliates and the Personnel of any of the foregoing, shall not be hired for any assignment that, by its nature, may be in conflict with another assignment of the Consultant to be executed for the same or for another Procuring Agency. For example, a Consultant hired to prepare engineering design for an infrastructure project shall not be engaged to prepare an independent environmental assessment for the same project, and a Consultant assisting a Procuring Agency in the privatization of public assets shall not purchase, nor advise purchasers of, such assets. Similarly, a Consultant hired to prepare Terms of Reference for an assignment, or otherwise to provide any other services during the preparatory stages of the assignment or of the project of which the assignment forms a part, shall not be hired for the assignment in question

c) Conflicting Relationships:

- (i) A Consultant, including its Sub-Consultants, affiliates and the Personnel of any of the foregoing, that has a business relationship within a member of the Procuring Agency's staff who is directly or indirectly involved in any part of (i) the preparation of the Terms of Reference of the assignment, (ii) the selection process for such assignment, or (iii) supervision of the Contract, may not be awarded a Contract, unless the conflict stemming from this relationship has been resolved in a manner acceptable to the Procuring Agency throughout the selection process and the execution of the Contract.
- (ii) A Consultant, including its Sub-Consultants, affiliates and the Personnel of any of the foregoing, that employs or otherwise engages a spouse, dependent or close relative of a public servant of the RGoB who either is employed by the Procuring Agency or has an authority over it also shall not be eligible to be awarded a Contract. For the purposes of this sub-paragraph, a close relative is defined as immediate family which includes father, mother, brother, sister, spouse and own children.

Consultants have an obligation to disclose any situation of actual or potential conflict that impacts their capacity to serve the best interests of the Procuring Agency, or that may reasonably be perceived as having this effect. Failure to disclose said situations may lead to the disqualification of the Consultant or the termination of its Contract.

When the Consultant nominates any present or previous government employee as Personnel in its Technical Proposal, such Personnel must have written certification from the Royal Civil Service Commission of Bhutan or their employer confirming that:

- a) they are not current employees of the Procuring Agency, and
- b) they are on leave without pay from their official position, and
- c) they are allowed to work full-time outside of their previous official position.

Such certification(s) shall be provided to the Procuring Agency by the Consultant as part of its Technical Proposal.

When the Consultant nominates any former employee of the Procuring Agency as Personnel in its Technical Proposal it must ensure, and so certify in its Technical Proposal, that no conflict of interest exists in the scope of the former employee's inclusion within the Consultant's Personnel being proposed to provide the Services.

- 3. Unfair Advantage** 3.1. If a Consultant could derive a competitive advantage from having provided Consulting Services related to the assignment in question, the Procuring Agency shall make available to all Consultants together with this RFP all information that would in that respect give such Consultant any competitive advantage over competing Consultants.
- 4. Fraud and Corruption** It is RGoB policy to require that Consultants, their Sub-Consultants and the Personnel of them both observe the highest standards of ethics during the procurement and execution of contracts.<sup>1</sup> In pursuance of this policy, the RGoB:
- a) defines, for the purposes of this provision, the terms set forth below as follows:
    - (i) “corrupt practice”<sup>2</sup> means the offering, giving, receiving or soliciting, directly or indirectly, of anything of value<sup>3</sup> to influence improperly the actions of another party;
    - (ii) “fraudulent practice”<sup>4</sup> means any intentional act or omission, including a misrepresentation, that knowingly or recklessly misleads, or attempts to mislead, a party to obtain a financial or other benefit or to avoid an obligation;
    - (iii) “collusive practice”<sup>5</sup> means an arrangement between two or more parties designed to achieve an improper purpose, including to influence improperly the actions of another party;
    - (iv) “coercive practice”<sup>6</sup> means impairing or harming, or threatening to impair or harm, directly or indirectly, any party or the property of the party to influence improperly the actions of a party;

---

1 In this context, any action taken by a Consultant, Sub-Consultant or the Personnel of either of them to influence the procurement process or contract execution for undue advantage is improper.

2 “another party” refers to a public official acting in relation to the procurement process or contract execution. In this context, “public official” includes staff and employees of any organizations (including any institutions providing finance for the Services) taking or reviewing procurement decisions.

3 “anything of value” includes, but is not limited to, any gift, loan, fee, commission, valuable security or other asset or interest in an asset; any office, employment or contract; any payment, discharge or liquidation of any loan, obligation or other liability whatsoever, whether in whole or in part; any other services, favour or advantage, including protection from any penalty or disability incurred or apprehended or from any action or proceeding of a disciplinary or penal nature, whether or not already instituted and including the exercise or the forbearance from the exercise of any right or any official power or duty.

4 a “party” refers to a public official; the terms “benefit” and “obligation” relate to the procurement process or contract execution; and the “act or omission” is intended to influence the procurement process or contract execution.

5 “parties” refers to participants in the procurement process (including public officials) and an “improper purpose” includes attempting to establish proposal prices at artificial, non competitive levels.

6 a “party” refers to a participant in the procurement process or contract execution.

- (v) “obstructive practice” means:
  - (aa) deliberately destroying, falsifying, altering or concealing of evidence material to the investigation or making false statements to investigators in order materially to impede any investigation into allegations of a corrupt, fraudulent, coercive or collusive practice; and/or threatening, harassing or intimidating any party to prevent it from disclosing its knowledge of matters relevant to the investigation or from pursuing the investigation; or
  - (bb) acts intended materially to impede the exercise of the inspection and audit rights of the Procuring Agency or any organization or person appointed by the Procuring Agency and/or any relevant RGoB agency provided for under sub-paragraph d below of this paragraph 4.1.
- b) will reject a proposal for award if it determines that the Consultant recommended for award has, directly or through an agent, engaged in corrupt, fraudulent, collusive, coercive or obstructive practices in competing for the contract in question;
- c) will sanction a Consultant or individual, including declaring them ineligible, either indefinitely or for a stated period of time, to be awarded an RGoB-financed contract if at any time it determines that they have, directly or through an agent, engaged in corrupt, fraudulent, collusive, coercive or obstructive practices in competing for, or in executing, an RGoB-financed contract;
- d) will have the right to require that a provision be included in Requests for Proposals and in contracts financed by the RGoB, requiring Consultants and their Sub-Consultants to permit the Procuring Agency, any organization or person appointed by the Procuring Agency and/or any relevant RGoB agency to inspect their accounts and records and other documents relating to their submission of proposals and contract performance, and to have them audited by auditors appointed by the Procuring Agency;
- e) Requires that Consultants, as a condition of admission to eligibility, execute and attach to their Proposals an Integrity Pact Statement in the form provided in Form TECH-8 of Section 3 as specified in ITC. Failure to provide a duly executed Integrity Pact Statement may result in disqualification of the Proposal; and
- f) will report any case of corrupt, fraudulent, collusive, coercive or obstructive practice to the relevant RGoB agencies, including but not limited to the Anticorruption Commission (ACC) of Bhutan, for necessary action as per the statutes and provisions of the relevant agency.

Consultants, their Sub-Consultants, and their affiliates shall not be under a declaration of ineligibility for corrupt, fraudulent, collusive, coercive or obstructive practices issued by the Procuring Agency in accordance with the above sub-paragraph (c) of this paragraph 4.1. Furthermore, Consultants shall be aware of the provisions on fraud and corruption stated in the specific clauses in the General Conditions of Contract.

Consultants shall furnish information on commissions and gratuities, if any, paid or to be paid to agents relating to this proposal and during execution of the assignment if the Consultant is awarded the Contract, as requested in the Financial Proposal Submission Form (Section 4).

- 5. Origin of Goods and Consulting Services** Goods supplied and Consulting Services provided under the Contract may originate from any country except if:
- a) as a matter of law or official regulation, RGoB prohibits commercial relations with that country; or
  - b) by an act of compliance with a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations, Bhutan prohibits any imports of goods or services from that country or any payments to persons or entities in that country.
- 6. Only one Proposal per Consultant** 6.1. A Consultant may only submit one proposal. If a Consultant submits or participates in more than one proposal, such proposals shall be disqualified. However, this does not limit the participation of the same Sub-Consultant, including individual experts, in more than one proposal.
- 7. Proposal Validity** 7.1. The Data Sheet indicates how long Consultants' Proposals must remain valid after the submission date. During this period, Consultants shall maintain the availability of Professional staff nominated in the Proposal. The Procuring Agency will make its best efforts to complete negotiations within this period. Should the need arise, however, the Procuring Agency may request Consultants in writing to extend the validity period of their proposals. Consultants who agree to such extension shall confirm in writing that they maintain the availability of the Professional staff nominated in the Proposal or, in their confirmation of extension of validity of the Proposal, Consultants could submit new staff in replacement who would be considered in the final evaluation for Contract award. Consultants who do not agree have the right to refuse to extend the validity of their Proposals.
- 8. Eligibility of Consultants** 8.1. The Procuring Agency permits consultants (individuals and firms, including Joint Ventures and their individual members) from all countries to offer consulting services for RGoB projects.

Furthermore, it is the Consultant's responsibility to ensure that its Experts, joint venture members, Sub-consultants, agents (declared or not), sub-contractors, service providers, suppliers and/or their employees meet the eligibility requirements as established by the RGoB in the Applicable Regulations.

In case a shortlisted Consultant intends to associate with other Consultants who have not been shortlisted and/or individual expert(s), such other Consultants and/or individual expert(s) shall be subject to the same eligibility criteria as are stipulated for the Consultant.

- 9. Restrictions for State-Owned Enterprises** State-owned enterprises or institutions may be eligible to compete and be awarded a contract only if they can establish that they:
- a) are legally and financially autonomous

The Consultants' representatives who are present shall be requested to sign the record. The omission of a representative's signature on the record shall not invalidate the contents and effect of the record. A copy of the record shall be distributed to all Consultants who submitted Proposals.

### **23. Correction of Errors**

The Evaluation Committee will correct any computational errors. When correcting computational errors, in case of any discrepancy between a partial amount and the total amount, or between words and figures, the formers shall prevail. In addition to the above corrections, as indicated under paragraph 15.1, activities and items described in the Technical Proposal but not priced shall be assumed to be included in the prices of other activities or items. In case an activity or line item is quantified in the Financial Proposal differently from the Technical Proposal:

- a) if the Time-Based form of Contract has been included in the RFP, the Evaluation Committee shall correct the quantification indicated in the Financial Proposal so as to make it consistent with that indicated in the Technical Proposal, apply the relevant unit price included in the Financial Proposal to the corrected quantity and correct the total Proposal cost, and
- b) if the Lump-Sum form of Contract has been included in the RFP, no corrections are applied to the Financial Proposal in this respect.

- 24. Conversion to Single Currency** 24.1. Prices shall be converted to a single currency using the selling rates of exchange, source and date indicated in the Data Sheet.
- 25. Combined Quality and Cost Evaluation** In the case of QCBS, the lowest evaluated Financial Proposal (Fm) will be given the maximum financial score (Sf) of 100 points. The financial scores (Sf) of the other Financial Proposals will be computed as indicated in the Data Sheet. Proposals will be ranked according to their combined technical (St) and financial (Sf) scores using the weights (T = the weight given to the Technical Proposal; P = the weight given to the Financial Proposal; T + P = 1) indicated in the Data Sheet:  $S = St \times T\% + Sf \times P\%$ . The firm achieving the highest combined technical and financial score will be invited for negotiations.
- In the case of Fixed-Budget Selection, the Procuring Agency will select the firm that submitted the highest ranked Technical Proposal within the budget and invite such Consultant to negotiate the Contract. Proposals that exceed the indicated budget will be rejected.
- In the case of Least-Cost Selection, the Procuring Agency will select the lowest proposal among those that passed the minimum technical score and invite such Consultant to negotiate the Contract.
- 26. Negotiations** 26.1. Negotiations will be held at the date and address indicated in the Data Sheet. The invited Consultant will, as a pre-requisite for attendance at the negotiations, confirm availability of all Professional staff. Failure to satisfy this requirement may result in the Procuring Agency proceeding to negotiate with the next-ranked Consultant. Representatives conducting negotiations on behalf of the Consultant must have written authority to negotiate and conclude a Contract.
- 27. Technical Negotiations** 27.1. Negotiations will include a discussion of the Technical Proposal, the proposed technical approach and methodology, work plan, organization and staffing, any suggestions made by the Consultant to improve the Terms of Reference, and the Special Conditions of Contract. The Procuring Agency and the Consultant will finalize the Terms of Reference, staffing schedule, work schedule, logistics and reporting. These documents will then be incorporated into the Contract as "Description of Services". Special attention will be paid to defining clearly the inputs and facilities required from the Procuring Agency in order to ensure satisfactory implementation of the assignment. The Procuring Agency shall prepare minutes of the negotiations, which shall be signed by the Procuring Agency and the Consultant. The negotiations shall not substantially alter the original Terms of Reference or the terms of the Contract.

**28. Financial Negotiations**

If applicable, it is the responsibility of the Consultant, before starting financial negotiations, to contact the local tax authorities to determine the local tax amount to be paid by the Consultant under the Contract. The financial negotiations will include a clarification (if any) of the Consultant's tax liability in Bhutan, and the manner in which it will be reflected in the Contract; and will reflect the agreed technical modifications in the cost of the services.

In the cases of QCBS, Fixed-Budget Selection and the Least-Cost Selection methods involving time based Contracts, unless there are exceptional reasons the financial negotiations will involve neither the remuneration rates for staff nor other proposed unit rates. For other methods, Consultants will provide the Procuring Agency with the information on remuneration rates described in the Appendix attached to Section 4 - Financial Proposal - Standard Forms of this RFP.

In the case of a Lump Sum Contract where price is a factor of Selection, the price shall not be negotiated.

Reimbursable costs are payable on an actual expenses incurred basis, and thus shall not be subject to financial negotiation.

**29. Availability of Professional Staff/Experts**

29.1. Having selected the Consultant on the basis of, among other things, an evaluation of proposed Professional staff, the Procuring Agency expects to negotiate a Contract on the basis of the Professional staff named in the Proposal. Before contract negotiations, the Procuring Agency will require assurances that the Professional staff will actually be available. The Procuring Agency will not consider substitutions during contract negotiations unless both parties agree that undue delay in the selection process makes such substitution unavoidable or for reasons such as death or medical incapacity. If this is not the case and if it is established that Professional staff were offered in the proposal without confirming their availability, the Consultant may be disqualified. Any proposed substitute shall have equivalent or better qualifications and experience than the original candidate and be submitted by the Consultant within the period of time specified in the letter of invitation to negotiate.

**30. Conclusion of the Negotiations**

30.1. Negotiations will conclude with a review of the draft Contract. To complete negotiations the Procuring Agency and the Consultant will initial the agreed Contract. If negotiations fail, the Procuring Agency shall inform the Consultant in writing of the reasons for termination of the negotiations and then shall invite the Consultant whose Proposal received the second highest combined technical and financial score to negotiate a Contract. Once negotiations commence with the second ranked Consultant the Procuring Agency shall not reopen the earlier negotiations.

**31. Procuring Agency's Right to Accept or Reject Any or All Proposal**

31.1. The Procuring Agency reserves the right to accept or reject any Proposal, and to annul the Request for Proposals process and reject all Proposals at any time prior to Contract award, without thereby incurring any liability to Consultants.

The Contract shall be compatible with the Applicable Laws of Bhutan. The Contract shall be signed by the duly authorized representatives of the parties and shall bear the date of signature.

Where both the parties do not sign the Contract simultaneously,

- a) The Procuring Agency shall send to the selected Consultant two original copies of (1) the full agreed Contract and (2) the letter of acceptance (notification of award), each signed by its duly authorized representatives, with the date of signature;

- b) The letter of acceptance shall indicate the deadline by which it must be accepted, which shall normally be not more than 15 days from the date of its receipt by the Consultant;
- c) The Consultant, if he agrees to conclude the Contract, shall sign and date all original copies of the Contract and the letter of acceptance and return one copy of each to the Procuring Agency before the expiry of the deadline indicated in the letter of acceptance;

32.7. The Consultant is expected to commence the assignment on the date and location specified in the Data Sheet.

### **33. Confidentiality**

33.1. Information relating to evaluation of Proposals and recommendations concerning awards shall not be disclosed to the Consultants who submitted the Proposals or to other persons not officially concerned with the process, until the publication of the award of Contract. The undue use by any Consultant of confidential information related to the process may result in the rejection of its Proposal and may be subject to the provisions of the RGoB's anti-fraud and corruption policy.

### **34. Complaint and Review**

Any consultant has right to complain if it has or is likely to suffer, loss or injury due to breach of a duty imposed on the Procuring Entity by the provisions of this document. In the first instance, the consultant who submits Proposal shall submit the complaint to the Employer.

The Head of the procuring agency shall within seven (7) days after the submission of the complaint issue a written decision.

The consultant may appeal to the Independent Review Body within five (5) days of the decision of the Head of the procuring agency or where no such decision has been taken within fifteen (15) days of the original complaint and the copy of the appeal shall be given to the procuring agency on the same day.

Once the appeal copy is received by the procuring agency, it shall not proceed further with the procurement process until the receipt of notification from the Independent Review Body Secretariat.

**35. Debriefing by  
the Procuring  
Agency**

On the receipt of employer's notification of intention to award referred to in ITC 32, an unsuccessful consultant has three (3) working days to make a written request to the employer for debriefing. The employer shall provide a debriefing to all unsuccessful consultants whose request is received within this deadline.

Where a request for debriefing is received within the deadline, the employer shall provide the debriefing within five (5) working days.

The employer shall discuss only such proposal and not the proposal of other consultants. The debriefing shall not include:

- a) point-by-point comparisons with another proposal; and

The **definitions** of **Sub-criteria** under "*Adequacy of the proposed methodology and work plan*" are stated below:

**a) Technical Approach and Methodology:**

- **Poor:** The technical approach and / or the methodology are inappropriate or very poorly presented, indicating that the consultant has misunderstood important aspects of the scope of work. The list of contents of the Quality Plan (required in the TOR) is missing.
- **Satisfactory:** The way to carry out the different activities of the TOR is discussed generically. The approach is standard and not specifically tailored to the assignment. The list of contents of the Quality Plan (required in the TOR) is provided, but it is generic and does not reflect the specific features of the assignment.
- **Good:** The proposed approach is discussed in full details, and the methodology is specifically tailored to the characteristics of the assignment and flexible enough to allow its adaptation to changes that may occur during execution of the services. The list of contents of the Quality Plan (required in the TOR) is tailored to the specific characteristics of the assignment.
- **Very Good:** In addition to the requirements listed above under "Good," important issues are approached in an innovative and efficient way, indicating that the consultants have understood the main issues of the assignment and have outstanding knowledge of new solutions. The proposal details ways to improve the results and the quality of the assignment by using state-of-the-art approaches, methodologies, and knowledge. A detailed description of the Quality Plan is provided in addition to its lists of contents.

**b) Work Plan:**

- **Satisfactory:** The activity schedule omits important task; the timing of activities and correlation among them is inconsistent with the approach and/ or methodology proposed. There is lack of clarity and logic in the sequencing.
- **Good:** All key activities are included in the activity schedule, but they are not detailed. There are minor inconsistencies between timing, assignment outputs, and proposed approach.
- **Very Good:** The work plan fits the TOR well; all important activities are indicated in the activity schedule and their timing is appropriate and consistent with the assignment outputs; and the interrelation between the various activities is realistic and consistent with the proposed approach.

# APPENDIX A. FINANCIAL NEGOTIATIONS - BREAKDOWN OF REMUNERATION RATES

## 1. Review of Remuneration Rates

The remuneration rates are made up of salary or a base fee, social costs, overheads, profit, and any premium or allowance that may be paid for assignments away from headquarters or a home office. An attached Sample Form can be used to provide a breakdown of rates.

If the RFP requests submission of a technical proposal only, the Sample Form is used by the selected Consultant to prepare for the negotiations of the Contract. If the RFP requests submission of the financial proposal, the Sample Form shall be completed and attached to the Financial Form-3. Agreed (at the negotiations) breakdown sheets shall form part of the negotiated Contract and included in its Appendix D or C.

At the negotiations the firm shall be prepared to disclose its audited financial statements for the last three years, to substantiate its rates, and accept that its proposed rates and other financial matters are subject to scrutiny. The Client is charged with the custody of government funds and is expected to exercise prudence in the expenditure of these funds.

Rate details are discussed below:

- (i) Salary is the gross regular cash salary or fee paid to the individual in the firm's home office. It shall not contain any premium for work away from headquarters or bonus (except where these are included by law or government regulations).
- (ii) Bonuses are normally paid out of profits. To avoid double counting, any bonuses shall not normally be included in the "Salary" and should be shown separately. Where the Consultant's accounting system is such that the percentages of social costs and overheads are based on total revenue, including bonuses, those percentages shall be adjusted downward accordingly. Where national policy requires that 13 months' pay be given for 12 months' work, the profit element need not be adjusted downward. Any discussions on bonuses shall be supported by audited documentation, which shall be treated as confidential.
- (iii) Social Charges are the costs of non-monetary benefits and may include, inter alia, social security (including pension, medical, and life insurance costs) and the cost of a paid sick and/or annual leave. In this regard, a paid leave during public holidays or an annual leave taken during an assignment if no Expert's replacement has been provided is not considered social charges.
- (iv) Cost of Leave. The principles of calculating the cost of total days leave per annum as a percentage of basic salary is normally calculated as follows:

Leave cost as percentage of salary =

Where w = weekends, ph = public holidays, v = vacation, and s = sick leave.

Please note that leave can be considered as a social cost only if the Client is not charged for the leave taken.

- (v) Overheads are the Consultant's business costs that are not directly related to the execution of the assignment and shall not be reimbursed as separate items under the Contract. Typical items are home office costs (non-billable time, time of senior Consultant's staff monitoring the project, rent of headquarters' office, support staff,

research, staff training, marketing, etc.), the cost of Consultant's personnel not currently employed on revenue-earning projects, taxes on business activities, and business promotion costs. During negotiations, audited financial statements, certified as correct by an independent auditor and supporting the last three years' overheads, shall be available for discussion, together with detailed lists of items making up the overheads and the percentage by which each relates to basic salary. The Client does not accept an add-on margin for social charges, overhead expenses, etc. for Experts who are not permanent employees of the Consultant. In such case, the Consultant shall be entitled only to administrative costs and a fee on the monthly payments charged for sub-contracted Experts.

- (vi) Profit is normally based on the sum of the Salary, Social costs, and Overheads. If any bonuses paid on a regular basis are listed, a corresponding reduction shall be made in the profit amount. Profit shall not be allowed on travel or any other reimbursable expenses.
- (vii) Away from Home Office Allowance or Premium or Subsistence Allowances. Some Consultants pay allowances to Experts working away from headquarters or outside of the home office. Such allowances are calculated as a percentage of salary (or a fee) and shall not draw overheads or profit. Sometimes, by law, such allowances may draw social costs. In this case, the amount of this social cost shall still be shown under social costs, with the net allowance shown separately.

UNDP standard rates for the particular country may be used as reference to determine subsistence allowances.

## Section 5: Terms of Reference (TOR)

### 1. Background:

---

Paro is about 55 Km away from the Capital City Thimphu and is one of the picturesque places in the western region of Bhutan. It is one of the widest valleys at an altitude of 2250m above sea level. It is bordered by Thimphu in the east, Haa in the west and Chhukha Dzongkhag in the south. The Dzongkhag has 10 Gewogs and 50 Chiwogs with an area of 1293 sq.km. It is covered by fertile rice fields complimented by many religious sites and many elegant, traditional buildings that dot the valley and the surrounding hills. The country's first and only international airport is also located in Paro.

Apart from being one of the most beautiful valleys in the country, Paro is also rich in agricultural produce. It has the highest yield of paddy production in Bhutan with an average yield of 2147 Kg/Acre in a cultivated area of 3950 Acres (Agriculture Statistics, 2012 and 2013). Consequently, agriculture and tourism are the two main drivers of economy for the Dzongkhag. Owing to the growing economy and given Paro's proximity to the capital city, the Dzongkhag is growing at rapid pace leading to many socio-economic changes, due to which there are a large number of luxurious high-end tourist resorts.

The Paro Valley Development Plan was prepared in the year 2017 with the vision to preserve Paro Valley as an image of Bhutan's Cultural Landscape. In order to achieve sustainable developments, it is encouraged to prepare Local Area Plans where there are more developments. Prior to the preparation of LAP, we intend to carry out the topographic survey of Bondey and Lamgong as a part of feasibility study.

The area to be surveyed is about **553 acres (2.24 sq. km)**. For survey boundary, refer the *Reference Map-1 and Reference Map-2*.

## PREFACE

1. This standard Contract for Consulting Services has been prepared in line with the RGoB 2009 Procurement Rules and Regulations and is to be used by implementing agencies (referred to hereafter as Procuring Agencies) when they hire a consulting firm (referred to hereinafter as the Consultant) to provide services paid for on a lump-sum basis.
  - (i) The Contract includes four parts:
  - (ii) Form of Contract
  - (iii) General Conditions of Contract
  - (iv) Special Conditions of Contract
  - (v) Appendices
2. The Procuring Agency using this standard Contract should not alter the General Conditions. Any adjustment to meet project features should be made only in the Special Conditions.
3. Lump-sum Contracts are normally used when definition of the tasks to be performed is clear and unambiguous, when the commercial risks taken by the Consultant are relatively low, and when therefore such Consultant is prepared to perform the assignment for an agreed predetermined lump-sum price. Such price is arrived at on the basis of inputs - including rates - provided by the Consultant. The Procuring Agency agrees to pay the Consultant according to a schedule of payments linked to the delivery of certain outputs, for example reports. A major advantage of the lump-sum Contract is the simplicity of its administration, the Procuring Agency having only to be satisfied with the outputs without monitoring the staff inputs. Studies are usually carried out on a lump-sum basis; for example, surveys, master plans, economic, sector, simple feasibility and engineering studies.
